

# CAN MAURISSET

2013

D.O.Q. PRIORAT

Priorat is a valley surrounded by a large mountain range that makes it almost impossible for clouds to penetrate into the valley to give water. This has the effect that we have a warmer summer and a colder winter than in other areas of Spain.

**Altitude**\_240 meters

**Rain**\_75 to 130 Liters/m<sup>2</sup>

**Mediterranean climate.**

**Varied soil due to its topography**\_Calcareous, sandy, clayey, llicorella.

**Grapes characteristics**\_Generally small grape, with sparse density, and due to its location, with concentration of wine components.

**Characteristics of the wine**\_Very concentrated, with a specific aroma and flavour.

**Yearly grape production**\_60.000 kg and 850 grams per vine.

**On llicorella**\_Characteristic stone of the Priorat area, that has the particularity of being rich in minerals that are transmitted to the grapes through the vine. It is a stone that does not retain water.

## TECHNICAL DATA

CELLER GRIFOLL DECLARA

**Variety**\_45% Garnacha / 45% Carignan

10% Cabernet Sauvignon

**Alcohol Content**\_14,5%

Aged 9 months in new French oak

Vines between 35 to 45 years old

## TASTING NOTES

Very intense cherry red color.

Deploying in the nose a range of aromas of citrus and fresh tones, red ripe fruit, vanilla, tobacco. On the palate it has a creamy sensation, sweet, fruity and deep.

The wine has a firm structure and a good tannic trip assembled by the very well integrated oak.
